## WHEN YOUR ACTIVEWEAR SHINES, SO DO YOU

The feeling of cold air on our face on the morning run, or the sheer exhilaration that courses through us as we finally master the headstand on the yoga mat. There is nothing quite like being active...apart from the feeling of total freedom, total movement...total comfort to do so.

Comfort may mean something different to us all, but as women, we have a uniting commonality: to be able to be active in the way that suits us and our lifestyles and to do so without feeling restricted or uncomfortable. Comfort gives us the ability to be confident and confidence builds our resilient mindset that supports any activity we choose to carry out.

# versatility 101

We are placing increased importance on physical activity as the endorphins it releases helps us feel mentally and emotionally better in ourselves.

When it comes to working out, whether its in the pilates studio, at home or heavy HIIT session at the gym, we need a bra that can offer optimum comfort and support – comfort that enables us to workout in confidence and feel as good in mind as well as body.

### FREEDOM TO MOVE

The Triaction range offers sports bras that boast extreme lightness, Stay Dry Technology that keeps moisture away from the skin, through to superior bounce control... working out never looked or felt so good!

Pair with the coordinating leggings, made with special performance fabric that provide total breathability so you can work-out any time, any day, your way!

The whole range has been designed with comfort firmly rooted at its core, leaving us to work on our core whilst feeling utterly supported.
